

SEBRING HISTORIC RACES – REVISITED OCT 2010

On 21 October, members of SSSACC arrived at Sebring for the Historic Sports Car Racing (HSR) event of the year.

Three SSSACC members went to Sebring with two solid axle cars: John Luther and his '57, and the Blounts with the '60. SSSACC Vice-President, Russ Sobczak, was there with the #63, C5 team.

We had a great time, cars ran great, nothing got tore up, Kenilworth hotel and adjoining Lakeview restaurant were super and very economical. There was plenty of room at the track, good parking and great weather. And, if you remember last year, the #63 race car suffered fatal injuries and had a short weekend. This year was a new chapter as they did not break anything and finished 2nd in class in 1.5 hour enduro which gave them first place in points for enduros for the 2010 season.

John and Tom spent most of their time in the paddock with the #63 team, where Russ turns wrenches. The #63 is a C5 Z06 with lots of goodies, to include high tech telemetries, cameras, air jacks, etc. Note the 2" of ground clearance.

The two old cars just drew crowds like magnets despite all the high dollar eye candy all over the area.

John Luther took his '57 and Tom and Mary took the '60 on the track tour Saturday.
